Build your bowl your way — fresh,  
fast, and packed with flavour.

---

## Académie Sainte-Famille & Historic Museum of Tracadie

Built between 1910 and 1912, this former school was once managed by the Religious Hospitallers of Saint Joseph. Today, it is recognized as a provincial historic heritage site. The Tracadie Historical Museum, located on the second floor of the Académie Sainte-Famille, is the only museum in Eastern Canada that offers an overview of what a leprosarium was like in the 19th century.

### Discover:

- The moving history of leprosy in New Brunswick and leprosaria
- The origins of Francophone healthcare in the Maritimes
- The educational work of the Religious Hospitallers of Saint Joseph
- The Heritage Trail leading to the leper cemetery
- The first settlers, the founding families of the region, and numerous artifacts.

## La Croix Ignorée

Relive the moving era of the leprosarium with the musical theatre production that highlights an important chapter in Tracadie's history.

July 16, 17, 18, 19, 24, 25, and 26, 2026
